1 Main text

Theorem 1. *A theorem labeled with an explicit counter type. It has an equation:*

$$1 = 1 \tag{1}$$

and one labeled without an explicit type:

$$2 = 2 \tag{2}$$

Proof. Inlined proof, referring to eq. (1) and eq. (2). □

References: theorem 1, eq. (1), eq. (2), and the `-apx` variants eq. (1), eq. (2).
