1 Main text

Theorem 1. *A theorem labeled with an explicit counter type. It has an equation:*

$$1 = 1 \tag{1}$$

and one labeled without an explicit type:

$$2 = 2 \tag{2}$$

Lemma 1. *A starred repeated theorem, also labeled with a counter type.*

References to the main text: theorem 1, eq. (1), eq. (2), lemma 1, section A.
References to the appendix copies of the equations: eq. (1), eq. (2).

A Proofs for Section 1 (Main text)

Theorem 1. *A theorem labeled with an explicit counter type. It has an equation:*

$$1 = 1 \tag{1}$$

and one labeled without an explicit type:

$$2 = 2 \tag{2}$$

Proof. Deferred proof, referring to eq. (1) and eq. (2). □

Proof. Deferred proof of lemma 1. □

Appendix material, labeled with a counter type.
