1 Main text

Theorem 1 (Outer)**.** *An outer theorem,*

Lemma 2 (Inner)**.** *with an inner lemma*

$$1 = 1 \tag{1}$$

Theorem 3. *containing a theorem of the same kind,*

a starred claim

Claim 4. *that is restated with it,*

and some text after them.

Theorem 5. *A theorem after the nested ones.*

$$2 = 2 \tag{2}$$

References: Theorem 1, Lemma 2, Theorem 3, Claim 4, Theorem 5, equations (1) and (2), and the `-apx` variants A, A, A, A, A, (1), (2).

A Proofs for Section 1 (Main text)

Theorem 1 (Outer)**.** *An outer theorem,*

Lemma 2 (Inner)**.** *with an inner lemma*

$$1 = 1 \tag{1}$$

Theorem 3. *containing a theorem of the same kind,*

a starred claim

Claim 4. *that is restated with it,*

and some text after them.

Proof. Proof of the outer theorem. □

Theorem 5. *A theorem after the nested ones.*

$$2 = 2 \tag{2}$$

Proof. Proof of the theorem after. □
